

# FLOODLIGHT

## Premium High Performance LED Floodlight

Our brand new Premium Floodlight Series is all about power, customization and flexibility to fit any installation.

With an industry leading electronic adjustable beam angle, powerful lumen output ranging from 3000 to 22,500 lumens, 4 selectable wattage options and 3 CCT selectable color temperatures and a night & day photocell with an ON/OFF switch. All of that packed into a build quality only NDR Lighting can guarantee.
