

LED PINNACLE

SPECIFICATION GRADE TAPE LIGHTS AND ACCESSORIES

**COLLECTION
OVERVIEW**

The Pinnacle collection of LED tape light offers industry specification grade technology at an affordable price. Our tape light provides high lumen output, elevated color rendering indices, and market-leading LED binning criteria which ensures uniformity in both color and light intensity. All Pinnacle Series tape light models come standard with a double layer copper foil design that allows for longer runs with less voltage loss and superior heat dissipation that prolongs the product lifetime.

FEATURES

- Fully dimmable ■
- High CRI ■
- High lumens/watt ■
- Double layer copper foil design ■
- 3-Step MacAdam binning (24V models only) ■
- Field cuttable ■
- 120V IP65 – Wet location rated ■

The Pinnacle Series accessory collection is designed to make the installation of LED strip secure, safe, and easy. The connector accessories are offered in either clip or screw down version, in varied configurations. Both have been designed and manufactured to leading edge industry standards.

The Pinnacle Series 24V driver collection is conceived with complete flexibility in mind. The compact size with a profile height of less than 1.6" and a certificate for wet rated locations allows for unlimited installation applications. It meets all requirements for Class 2 certification and is offered in three wattage configurations to answer various installation needs.
